

2010 ISOMRM

International Symposium of Materials on Regenerative Medicine

November 3th - 5th, 2010

National Health Research Institute, Taiwan

<http://2010isomrm.nhri.org.tw/>

Main Theme The Prospects of Materials on Health Care Technology

Call for Papers

The conference will focus on the important advances in biomaterials and regenerative medicine, both in fundamental and applied science, and in clinical studies

Session Topics

- | Bioceramics
- | Biopolymers
- | Bionanotechnology
- | Biosensors
- | Artificial Organs
- | Tissue Engineering
- | Polymers in Medicine
- | Cellular Engineering
- | Stem Cells
- | Drug Delivery System
- | Gene Delivery System
- | Hyperthermia

Important Dates

Deadline for Full Text Submission of Young Investigator Award	June 30, 2010
Deadline for Abstract Submission	July 31, 2010
Deadline for Notification of Acceptance	August 31, 2010
Deadline for Registration	September 30, 2010

Honorary President
David F. Williams,
Editor-in-Chief, Biomaterials

President
Feng-Huei Lin,
Director,
Division of Medical Engineering, NHRI, Taiwan

Vice-President
V. Renugopalakrishnan,
Professor,
Children's Hospital, Harvard Medical School, USA

For more information, please visit the conference website:
<http://2010isomrm.nhri.org.tw/>

Secretary General
Ming-Fa Hsieh,
Professor,
Department of Biomedical Engineering, CYCU, Taiwan
Secretary
Dr. Ching-Li Tseng
Division of Medical Engineering, NHRI, Taiwan
Tel: 886-37-246166 ext.37126 E-mail: ching@nhri.org.tw
